ACUTE CHOLECYSTITIS. Nenad Gagic, M.D., Charles F. Frey, M.D., F.A.C.S., *Eloise, Michigan, and* Ray Gaines, M.D., F.A.C.S., *Omaha, Nebraska* 868

ASSOCIATED DIAGNOSES WHICH COMPLICATE REHABILITATION OF THE PATIENT WITH BILATERAL LOWER EXTREMITY AMPUTATIONS. Morris D. Kerstein, M.D., F.A.C.S., Howard Zimmer, M.A., Frederick E. Dugdale, M.D., *and* Emanuel Lerner, M.A., *West Haven, Connecticut* 875

TRENDS IN SURGICAL TREATMENT OF CALCULOUS DISEASE OF THE BILIARY TRACT. Frank Glenn, M.D., F.A.C.S., *New York, New York* 877

THE INFLUENCES OF CHANGES IN TEMPERATURE ON INTESTINAL LYMPH FLOW AND RELATIONSHIP TO OPERATIONS FOR CARCINOMA OF THE INTESTINE. Norman B. Ackerman, M.D., F.A.C.S., *Syracuse, New York* 885

Use of Peritoneal Lavage in the Diagnosis of Experimental Acute Pancreatitis. George W. Machiedo, M.D., Craig S. Brown, M.D., Jeffrey E. Lavigne, M.D., *and* Benjamin F. Rush, Jr., M.D., F.A.C.S., *Newark, New Jersey* 889

Heterotopic Bone Formation in Abdominal Scars. John Wong, M.B., F.R.A.C.S., *and* John Loewenthal, M.S., F.R.C.S.(ENG.), F.R.A.C.S., F.A.C.S.(HON.), *Sydney, Australia* 893

Glomerular Antigen Complexes Associated with Transitional Cell Carcinoma. Lawrence W. Jones, M.D., Alan Levin, M.D., *and* H. Hugh Fudenberg, M.D., *San Francisco, California* 896

Technetium Bone Scanning as an Aid in the Diagnosis of Atypical Acute Osteomyelitis in Children. R. M. Letts, M.D., F.R.C.S.(C), A. Afifi, M.D., F.R.C.S.(C), *and* J. B. Sutherland, M.D., *Winnipeg, Manitoba, Canada* 899

The Frequency and Detection of Serious Postoperative Thromboembolic Disease. Richard P. Levy, M.D., Victor G. Laus, M.S., *and* Floro D. Miraldi, M.D., *Cleveland, Ohio* 903

The Surgical Management of Ulcers of the Heel. Ralph Ger, M.D., F.A.C.S., *New York, New York* 909

Flow Through the Bile Duct After Cholecystectomy. G. W. Scott, M.D., F.R.C.S.(C), *Edmonton, Alberta, Canada*, R. E. Smallwood, M.SC., *and* S. Rowlands, M.D., *Calgary, Alberta, Canada* 912

Quantitative Morphologic Assessment of Immunoreactivity in Regional Lymph Nodes of Patients with Carcinoma of the Breast. Mario Wernicke, M.D., *Buenos Aires, Argentina* 919

Cystadenoma of the Pancreas. M. S. Didolkar, M.D., F.R.C.S.(ENG.), Y. Malhotra, M.D., E. D. Holyoke, M.D., F.A.C.S., *and* E. G. Elias, M.D., F.A.C.S., *Buffalo, New York* 925

Clinical Course of Cystosarcoma Phyllodes Related to Histologic Appearance. Mogens Blichert-Toft, M.D., Jens Peder Hart Hansen, M.D., Ole Hart Hansen, M.D., *and* Torben Schiødt, M.D., *Copenhagen, Denmark* 929

The Effect of Suture Materials on Healing Wounds of the Bladder. J. Christopher Hastings, M.D., Walton Van Winkle, Jr., M.D., Ellen Barker, B.S., Dianne Hines, B.A., *and* Waltraud Nichols, B.S., *Tucson, Arizona* 933

THE EFFECT OF ESTROGEN ON THE VASCULAR ENDOTHELIUM AND ITS POSSIBLE RELATION TO THROMBOSIS. Torsten Almén, M.D., Michael Härtel, M.D., Göran Nylander, M.D., *and* Hans Olivecrona, M.D., *Malmö, Sweden* 938

EXPERIENCE WITH DETAILED SURVEILLANCE OF NOSOCOMIAL INFECTION. S. Grant Mulholland, M.D., F.A.C.S., Gerard J. McGarrity, PH.D., Oscar A. Ross, M.D., Paul J. Greenhalgh, B.S., *Philadelphia, Pennsylvania, and* William S. Blakemore, M.D., F.A.C.S., *Toledo, Ohio* 941

EDITORIAL

AN ONCOLOGIC PUZZLE. J. Chandler Smith, M.D., *Kansas City, Missouri* 946

THE SURGEON AT WORK

A TECHNIQUE FOR CLOSURE OF LEAK OF SPINAL FLUID. Jaime D. Rosenthal, M.D., Joseph F. Hahn, M.D., *and* Juan Martinez-G., M.D., F.A.C.S., *Charlottesville, Virginia* 948

INTRAOPERATIVE DEMONSTRATION OF THE MESENTERIC LYMPH CHANNELS. Jonathan E. Rhoads, Jr., M.D., *Philadelphia, Pennsylvania* 951

TECHNICAL DETAILS IN THE SURGICAL CORRECTION OF EXTRAHEPATIC BILIARY ATRESIA. R. Peter Altman, M.D., F.A.C.S., *Washington, District of Columbia, and* John R. Lilly, M.D., F.A.C.S., *Denver, Colorado* 952

COLLECTIVE REVIEW

SURGICAL TECHNIQUES FOR OPERATIONS ON THE THORACIC DUCT. P. G. Cevese, M.D., R. Vecchioni, M.D., C. Cordiano, M.D., D. F. D'Amico, M.D., G. A. Farello, M.D., G. Favia, M.D., *and* R. Biasiato, M.D., *Padua, Italy* 957

SUBJECT INDEX TO VOLUME 140

ABDOMEN
pain, right upper quadrant without gallstones, cholecystokinin cholangiography and analysis of duodenal bile, 371
surgery, highly selective vagotomy, with intraoperative acid secretive test of completeness, 259
scars, heterotopic bone formation, 893
Abnormalities and deformities
biliary atresia, extrahepatic, surgical correction, 952
Amputations
lower extremity, bilateral, associated diagnoses which complicate rehabilitation, 875
pulmonary embolism after, 246
Anesthesia
local, data favoring biopsy of breast under, 88
Anticoagulants
warfarin, prophylactic, in total hip replacement, 523
Aorta
coarctation, surgical treatment, 743
roentgenography, translumbar, updated, 59
surgery, for treatment of coarctation, 743

BILE
jaundice, oral glucose tolerance in patients, 582
Biliary tract
atresia, extrahepatic, surgical corrective technique, 952
disease, calculous, trends in surgical treatment, 877
ducts, anastomosis, intrahepatic, in carcinoma of hilus of liver, 170
common, repair of defect of, using gallbladder or cystic duct as pedicled graft, 425
flow through, after cholecystectomy, 912
endoscopy, value, 601
roentgenography, cholecystokinin cholangiography and analysis of duodenal bile, 371
endoscopic, evaluation in surgical patients, 349
surgery, for calculous disease, 877
technique, correction of extrahepatic atresia, 952
Bladder
surgery, experimental, wounds, effect of suture materials, 933
urinary, incontinence, endoscopic suspension of vesical neck, 355
Blood
anticoagulation, prophylactic, in total hip replacement, 523
dialysis, bovine graft fistulas in patients with vascular access problems, 690
hemodynamics, clinical and experimental, changes in serum phosphate levels associated with intestinal infarction and necrosis, 19
experimental, changes in liver after hepatic dearterialization, 412
in patients with peripheral vascular disease, 249
ischemia, experimental, anoxia, effect of, on myoelectrical and mechanical activity of totally isolated canine stomach, 187
lymphocytes, subpopulations of thymus dependent and thymus independent, in human gut associated lymphoid tissues, 397
portal, experimental, influence on lipid metabolism, 381
sepsis, following endoscopic retrograde cholangiopancreatography, 365
pulmonary edema in patients with, 851
serum, phosphate levels, clinical and experimental, changes in, associated with intestinal infarction and necrosis, 19
protein bound fucose, diagnostic value in cancer of breast, 239
venous, portal, experimental, hepatotrophic factors, effect of diabetes mellitus, 549
Blood pressure
high, accelerated, treatment, and end stage renal failure by bilateral nephrectomy and renal transplantation, 161
systolic slope, and other pressure measurements in peripheral vascular disease, 249
Blood vessels
arteries, disease, peripheral, systolic slope and other measurements, 249
experimental, left internal mammary, implantation into infarcted left ventricular myocardium, direct revascularization of acute myocardial infarction by, 44
popliteal, aneurysms, 401
splenic, experimental, selective embolization, diminution of splenic function, 715
obstruction, acute, of duodenum following cast application, 563
roentgenography, simple aid in greater saphenous phlebography, 265
surgery, experimental, portacaval shunts, arterialization of liver, 594
umbilical cord, human, experimental, fate of, used as interposition arterial grafts, 567
veins, deep, thrombi, diagnosis, using Doppler ultrasonic technique, 740
greater saphenous, phlebography, simple aid, 265
thrombi, experimental, effect of estrogen on vascular endothelium, 938
postoperative, frequency and detection, 903
Bone
heterotopic, formation, in abdominal scars, 893
infection, acute atypical diagnosis, in children, technetium bone scanning as aid, 899
sarcoma, improvements in results, 693
tumors, sarcoma, improvement in results, 693
Book Shelf
Development of modern surgery, 268
Has medical history importance for surgeons?, 434
Surgeons at Little Big Horn, 774
Breast
biopsy, under local anesthesia, data favoring, 88
cancer; carcinoma, diagnostic value of protein bound serum fucose, 239
liver scan, 409
quantitative morphologic assessment of immunoreactivity in regional lymph nodes, 919
ten year follow-up results of surgical adjuvant chemotherapy, 528
treatment, by modified radical mastectomy, 22
in vivo uptake of tritiated estradiol, 544
surgery, modified radical mastectomy, for treatment of carcinoma, 22
tumors, cystosarcoma, clinical course, related to histologic appearance, 929
Burns
thermal, fiberoptic bronchoscopy after, 541

CANCER
bone, sarcoma, improvement in results, 693
breast, carcinoma, diagnostic value of protein bound serum fucose, 239
carcinoma, liver scan, 409
quantitative morphologic assessment of immunoreactivity in regional lymph nodes, 919
ten year follow-up results of surgical adjuvant chemotherapy, 528
treatment by modified radical mastectomy, 22

in vivo uptake of tritiated estradiol, 544
intestines, carcinoma, experimental influence of changes in temperature on intestinal lymph flow, 885
liver, hilus, carcinoma, intrahepatic cholangioenteric anastomosis, 170
liver cell, carcinoma, during prime of life, 75
surgery, radical mastectomy, treatment for breast, 22
treatment, surgical adjuvant chemotherapy, ten year follow-up results, 528
urinary tract, transitional cell carcinoma, associated glomerular antigen complexes, 896
uterus, vulva, treatment, separate inguinal incisions, 81
Chemotherapy
adjuvant, ten year follow-up results of patients with carcinoma of breast, 528
Collective Review
Complications of heparin therapy, 789
current management of hepatic tumors, 781
Donor heart resuscitation and storage, 621
Physiologic and immunologic considerations of lymphatic system in tumors and in transplants, 273
Recent advances and controversies in management of Hodgkin's disease, 445
Renal hypertension, 97
Surgical techniques for operations on thoracic duct, 957
Cystic duct
surgery, repair of common bile duct defects using, as pedicled graft, 425

Drugs
estrogen, experimental, effect on vascular endothelium, 938

Editorial
Are anesthesia deaths mistakes?, 765
Changing etilogic patterns of renal insufficiency in surgical patients, 85
Individualizing treatment for patient with cancer, 258
Lump in breast, 421
Oncologic puzzle, 946
Surgery, abused word, 608
Surgical gastroenterologist, 86
Surgical oncology at crossroads, 607
Embolism
pulmonary, after amputation of lower extremity, 246
Endotoxins
experimental, direct influence on cellular respiration, 858
Esophagus
esophagogastric reflux, new hydrogen ion telemetry technique for evaluating, 749
Extremities
lower, amputation, pulmonary embolism after, 246
bilateral amputations, associated diagnoses which complicate rehabilitation, 875
melanoma, results of hyperthermic perfusion for, 339

Face
surgery, of shotgun injuries, 517
trauma, shotgun, surgical management, 517
Foot
heel, ulcers, surgical management, 909

Gallbladder
disease, acute, 868
acute, in children, 16
results of cholecystostomy for treatment, 255
excision, flow through bile duct after, 912
surgery, cholecystostomy, results, for treatment of acute cholecystitis, 255
repair of common bile duct defects using, as pedicled graft, 425
Glucose
tolerance test, oral, in patients with jaundice, 582

Hand
muscle, intrinsic, ischemic contracture, modified fibroblasts, 509
Head
injury, blunt impact, re-evaluation of biomechanics, 845
Heart
function, ventricular, experimental, in hemorrhagic shock, 572
muscle, infarction, acute, myocardium, experimental, direct revascularization of, by implantation of internal mammary artery into left ventricular, 44
transplantation, experimental, in endotoxin shock, 252
Hormones
estradiol, tritiated, in vivo uptake, in carcinoma of breast, 544
Hospitals
infections, surveillance, 941

Infection
candida, importance as infectious agent, 65
nosocomial, surveillance, 941
Instruments and apparatus
circle tube, silicone, further experience with, in nephroureterostomy urinary drainage, 547
endoscope, pancreatocholangiography, evaluation, in surgical patients, 349
retrograde cholangiopancreatography, septic complications following, 365
right-angled cholodochoscope, 601
for suspension of vesical neck for urinary incontinence, 355
fiberoptic bronchoscope, after thermal injury, 541
telemeter, hydrogen ion, new technique, for evaluating gastroesophageal reflux, 749
tracheostomy tubes, safe replacement, 769
Tru-cut® disposable needle, anterior approach to percutaneous liver biopsy, 422
ultrasonics, Doppler technique, diagnosis of deep venous thrombosis, 740
guided percutaneous, fine needle, 361
Intestines
anastomosis, intrahepatic, in carcinoma of hilus of liver, 170
cancer; carcinoma, experimental, influence of changes in temperature on intestinal lymph flow, 885
colon, experimental, effect of suture materials and healing wounds of, and stomach, 701
perforations, stercoraceous and idiopathic, 756
right, diverticular disease, 30
surgery, technique for conversion of loop colostomy to diverting colostomy, 433
use as conduit for urinary diversion, 33
duodenum, elemental diet into, experimental, effect on pancreatic secretion, 241
obstruction, acute vascular, following cast application, 563
fistula, complicating pancreatic abscess, 39
infarction, and necrosis, clinical and experimental, changes in serum phosphate levels associated with, 19
rectum, anastomosis, posterior approach, 609
surgery, transanal excision of sessile polyps, 766
small, and large, experimental, clearance of interstitial albumin by lymphatics, 405
surgery, experimental, influence of resection of small, on gastrin levels, 27
Isotopes
estradiol, tritiated, in vivo uptake, in carcinoma of breast, 544
hydrogen ion, telemetry technique, for evaluating gastroesophageal reflux, 749
iodinated human serum albumin, experimental, difference in clearance, by lymphatics from stomach and small and large intestine, 405
radioactive technetium (^{99m}Tc), bone scanning as aid in diagnosis of atypical acute osteomyelitis in children, 899
scintiscan, liver, and carcinoma of breast, 409

JOINTS
hip, replacement, total, prophylactic anticoagulation, 523
total replacement, in traumatic lesions about, 708
knee, amputation through, for nonambulatory patients, 771

KIDNEYS
biopsy, open, technique in children, 613
function, end stage failure, treatment, and of accelerated hypertension, by bilateral nephrectomy and renal transplantation, 161
surgery, nephroureterostomy, urinary diversion, experience with circle tube, 547
technique of open biopsy in children, 613
transplantation, morbidity and mortality, factors influencing, in high risk population, 1
treatment of accelerated hypertension and end stage renal failure by bilateral nephrectomy and, 161

LIVER
abscess, pyogenic, factor influencing mortality in treatment, 228
biopsy, percutaneous, anterior approach, 422
blood supply, experimental, arterialization, in combination with portacaval shunt in dog, 594
experimental, hemodynamic changes in, after dearterialization, 412
cancer; carcinoma, cell, during prime of life, 75
of hilus, intrahepatic cholangioenteric anastomosis, 170
ischemia, experimental, steroid protection, 368
metabolism, experimental, effect of diabetes mellitus on portal blood hepatotrophic factors, 549
scan, and carcinoma of breast, 409
Lungs
edema, in patients with sepsis, 851
embolism, after amputation of lower extremity, 246
function, cellular, experimental direct influence of endotoxins, 858
insufficiency, posttraumatic, cause, 179
surfactant system, experimental, normal electron histochemistry and effect of hemorrhagic shock, 53
surgery, postoperative care, comparison of two methods, 615
Lymph
circulation, intestinal, experimental, influence of changes in temperature, and relationship to operations for carcinoma of intestine, 885
Lymphatic system
lymph nodes, experimental, difference in clearance of interstitial albumin by, from stomach and small and large intestine, 405
mesenteric, intraoperative demonstration, 951
Lymph nodes
regional, quantitative morphologic assessment of immunoreactivity in, of patients with carcinoma of breast, 919

METABOLISM
lipid, experimental, influence of portal blood, 381
Mortality
factor influencing, in treatment of pyogenic hepatic abscess, 228
Muscles
disease, myasthenia gravis, transcervical thymectomy, 535
ischemia, hand, contraction, modified fibroblasts, 509

NERVES
cranial, vagus, experimental, evidence of nonvagal stimulation of canine gastric acid secretion, 861
vagus, highly selective section, intraoperative acid secretive test for completeness, 259
laryngeal, recurrent, use of inferior cornu of thyroid cartilage in identifying, 91
Nutrition
elemental diet, experimental, intraduodenal, effect on pancreatic secretion, 241

PALATE
tumors, glandular, 589
Pancreas
abscess, intestinal fistula complicating, 39
biopsy, ultrasonically guided percutaneous fine needle, 361
diabetes, experimental, influence of portal blood on lipid metabolism, 381
diabetes mellitus, experimental, effect on portal blood hepatotrophic factors, 549
inflammation, acute, experimental, peritoneal lavage in diagnosis, 889
roentgenography, endoscopic, evaluation in surgical patients, 349
secretion, experimental, effect of intraduodenal elemental diet, 241
tumors, cystadenoma, 925
ultrasonically guided percutaneous fine needle biopsy, 361
Pediatrics
cholecystitis, acute, 16
osteomyelitis, acute atypical, technetium bone scanning as aid in diagnosis, 899
surgery, technique of open renal biopsy, 613
Pelvis
tumors, nongenital, 605
Peritoneum
lavage, experimental, in diagnosis of acute pancreatitis, 889

ROENTGEN RAYS
diagnosis, cholecystokinin cholangiography, and analysis of duodenal bile, 371
endoscopic pancreatocholangiography, evaluation in surgical patients, 349
endoscopic retrograde cholangiopancreatography, septic complications following, 365
evaluation of endoscopic suspension of vesical neck for urinary incontinence, 355
translumbar aortography updated, 59
technique, simple aid in greater saphenous phlebography, 265
therapy, studies, experimental, creation of reliable gastric bleed in dogs, 13

SHOCK
endotoxin, experimental, heart transplantstion in, 252
hemorrhagic, experimental, normal electron histochemistry and effect on pulmonary surfactant system, 53
experimental, ventricular function, 572
Skin
wounds, experimental, effect of suture materials on healing, 7
Spinal cord
surgery, technique for closure of leak of fluid, 948
Spleen
function, diminution, experimental, selective embolization of splenic artery, 715
Steroids
experimental, for protection of liver during ischemia, 368
Stomach
blood supply, experimental, ischemic anoxia, effect on myoelectrical and mechanical activity of totally isolated canine stomach, 187
gastroesophageal reflux, new hydrogen ion telemetry technique for evaluating, 749
interstitial albumin, experimental, clearance of, by lymphatics, 405
secretion, acid, evidence of nonvagal neural stimulation of canine, 861
experimental, gastrin levels, influence of resection of small intestine on, 27
surgery, experimental, creation of bleed of, for angiographic studies, 13
experimental, effect of suture materials and healing wounds of, and colon, 701
Surgery
cardiac, in treatment of coarctation of aorta, 743
experimental, arterialization of liver in combination with portacaval shunt, 594
creation of reliable gastric bleed in dogs, 13

difference in clearance of interstitial albumin by lymphatics from stomach and small and large intestine, 405
direct influence of endotoxin on cellular respiration, 858
effect of diabetes mellitus on portal blood hepatotrophic factors, 549
of estrogen on vascular endothelium, 938
of intraduodenal elemental diet on pancreatic secretion, 241
of ischemic anoxia on myoelectrical and mechanical activity of totally isolated canine stomach, 187
of suture materials on healing wounds of bladder, 933
of suture materials on healing wounds of skin, 7
of suture materials on healing wounds of stomach and colon, 701
evidence of nonvagal neural stimulation of canine gastric acid secretion, 861
fate of human umbilical cord vessels as interposition arterial grafts, 567
heart transplantation in endotoxin shock, 252
hemodynamic changes in liver after hepatic dearterialization, 412
influence of changes in temperature on intestinal lymph flow and relationship to operations for carcinoma of intestine, 885
of resection of small intestine on gastrin levels, 27
selective embolization of splenic artery, dimunition of splenic function, 715
steroid protection of liver during ischemia, 368
technique, direct revascularization of acute myocardial infarction by implantation of left internal mammary artery into infarcted left ventricular myocardium, 44
use of peritoneal lavage in diagnosis of acute pancreatitis, 889
ventricular function in hemorrhagic shock, 572
gynecologic, nongenital pelvic tumors, 605
inferior cornu of thyroid cartilage in identifying recurrent laryngeal nerve, 91
morbidity and mortality, clinical determinants from postoperative renal failure, 685
renal transplantation, factors influencing, in high risk population, 1
results of cholecystostomy for treatment of acute cholecystitis, 255
postoperative care, pulmonary, comparison of two methods, 615
postoperative complications, renal failure, clinical determinants of survival, 685
thromboembolic disease, 903
postoperative results, ten year follow-up, of patients with carcinoma of breast evaluating surgical adjuvant chemotherapy, 528
postoperative study, circle tube nephroureterostomy urinary diversion, 547
reconstructive, amputation, bilateral lower extremity, associated diagnoses which complicate rehabilitation, 875
technique, amputation through knee for nonambulatory patient, 771
anterior approach to percutaneous liver biopsy, 422
breast under local anesthesia, data favoring biopsy, 88
closure of leak of spinal fluid, 948
comparison of two methods of postoperative pulmonary care, 615
for conversion of loop colostomy to diverting colostomy, 433
correction of extrahepatic biliary atresia, 952
highly selective vagotomy with intraoperative acid secretive test of completeness, 259
intrahepatic cholangioenteric anastomosis in carcinoma of liver, 170
intraoperative demonstration of mesenteric lymph channels, 951
open renal biopsy in children, 613
rectal anastomosis, posterior approach, 609
repair of common bile duct defects using gallbladder or cystic duct as pedicled graft, 425
safe replacement of tracheostomy tubes, 769
separate inguinal incisions in treatment of carcinoma of vulva, 81
total hip replacement in traumatic hip lesions, 708
transanal excision of sessile rectal polyps, 766
transcervical thymectomy in myasthenia gravis, 535
for ulcers of heel, 909
use of colon as conduit for urinary diversion, 33
treatment of calculous disease of biliary tract, 877
Sutures
absorbable, surgical, synthetic, clinical experience, 747
synthetic, 377
experimental, effect on healing wounds of bladder, 933
effect on healing wounds of skin, 7
on healing wounds of stomach and colon, 701
Syndrome
Zollinger-Ellison, diagnosis and treatment, natural history and experience with, 721
Thrombosis
venous, experimental, effect of estrogen on vascular endothelium, 938
Thymus
dependent and independent lymphocytes, subpopulations of, in human gut associated lymphoid tissue, 397
surgery, transcervical, in myasthenia gravis, 535
Trachea
surgery, safe replacement of tubes, 769
Transplants
grafts, arterial, experimental, interposition, fate of human umbilical cord vessels, 567
bovine, fistula, in patients with vascular access problems, 690
experimental, arterial, left internal mammary, direct revascularization of acute myocardial infarction by, into infarcted left ventricular myocardium, 44
pedicled, repair of common bile duct defects using gallbladder or cystic duct, 425
heart, experimental, in endotoxin shock, 252
kidney, morbidity and mortality, factors influencing, in high risk population, 1
treatment of accelerated hypertension and end stage renal failure by bilateral nephrectomy and, 161
Trauma
face, shotgun, surgical management, 517
head, impact, blunt, re-evaluation of biomechanics, 845
hip, total replacement in traumatic lesions about, 708
pulmonary, insufficiency, in man, cause, 179
thermal, fiberoptic bronchoscopy after, 541
ureter, pelvic, 761
Tumors
benign, cystadenoma, pancreas, 925
malignant, melanoma, of extremities, results of hyperthermic perfusion, 339
transitional cell carcinoma, associated glomerular antigen complexes, 896
melanoma, of extremities, results of hyperthermic perfusion, 339
palate, glandular, 589
papillomas, rectal, sessile, transanal excision, 766
pelvis, nongenital, 605
sarcoma, cystosarcoma, clinical course related to histologic appearance, 929
osteogenic, improvement in results, 693

URETERS
pelvic, injuries, 761
Urinary tract
cancer; carcinoma, glomerular antigen complexes associated with transitional cell carcinoma, 896
Urine
diversion, use of colon as conduit, 33
Uterus
pregnancy, prevention, sterilization, early complications in women not recently pregnant, 69
prevention, tubal ligation and hysterectomy, comparison of sterilization by, 235
surgery, hysterectomy, and tubal ligation, comparison of sterilization by, 235
vulva, cancer; carcinoma, separate inguinal incisions in treatment, 81
WHAT'S NEW IN SURGERY 193–227
Wounds
healing, experimental, effect of suture materials on, of bladder 933
experimental, effect of various suture materials upon, of skin, 7
effect of suture materials on, of stomach and colon, 701

ABSTRACTS SUBJECT INDEX TO VOLUME 140

ABDOMEN
angina, surgical treatment, 816
disease, glove starch granulomatous, 305
infection, bacteriology, 677
surgical, acute, and cardiovascular symptoms, 155
trauma, blunt, small intestinal injuries, 306
upper, cancer; carcinoma, operation, vascular problems, 675
wall, full thickness defects, repair, 467
reconstruction, after extensive cancer operation, 985
xenograft, corium, reconstruction, 305
Adrenal glands
removal, localized by ^{131}I-19-iodocholesterol, 140
tumors, pheochromocytoma, 476
pheochromocytoma, blood transfusion, preoperative, 310
organs of Zuckerkandl, angiography, 328
Androgens
therapy, in anemia, 1019
Anesthesia
controlled ventilation, residual capacity and alveolar-arterial oxygen difference, 158
cyclopropane, lung, equilibration, in infants and children, 501
disease, occupational, in operating room personnel, 678
epidural, effect on fetal and neonatal status, 838
intrapartum, effect on uterine activity, 838
for prostatectomy, 502
experimental, model cell membrane, 838
general, effect of carbon dioxide on intraocular pressure during, 501
halothane, hepatitis, 473
and nitrous oxide, fetal changes, experimental, 502
ketamine, in children and adults, 331
lidocaine, convulsions, experimental, diazepam effect, 678
local, with epinephrine, effect on skin flap survival, 807
in geriatric gynecology, 678
laparoscopic sterilization, 479
nitrous oxide, and halothane, fetal changes, experimental, 502
nitrous oxide-oxygen-relaxant, in alcholics, 1016
transplantation, kidney, 158
kidney, problems, 502
tubocurarine, requirements and plasma protein concentrations, in infants, 502
Antibiotics
and antiseptics and tubercle bacilli, 678
for gonorrhea, 501
prophylatic, in abdominal hysterectomy, 156
in orthopedic operations, 323
in vaginal hysterectomy, 157
Antigens
Australia, and hepatitis syndrome, in infants, 318
carcinoembryonic, in carcinoma of breast, 127
human leukocyte, and familial cancer of kidney, 489
serum lymphocytotoxic and lymphocytophilic, in inflammatory intestinal disease, 987
Anus
canal, tumors, malignant, 816
cancer; carcinoma, 985
sphincter, internal, with fissures, 813
internal and external, electromyographic study, and anorectal manometry, 307
tumors, hemangioma, 817
Aorta
autografts, in contaminated wounds, 834
thoracic, aneurysms, traumatic, 650
Axilla
sweating, excessive, 807

BACTERIA
anaerobic, isolation and identification, 156
biliary tract, 308
Biliary tract
atresia, diagnosis, in infants, 988
